**Additional Age Info**

From birth to school entry

**Service Description**

Provides parents and families with the knowledge, skills and support to meet the needs of their child who have a disability or developmental delay to optimise the child's development and ability to participate. Services include special education, therapy, counselling, service planning and coordination, assistance and support to access services such as kindergarten and child care. Also provide a central point of entry for Early Childhood Intervention Services (ECIS). Central Intake gathers information and determines whether your child meets eligibility criteria for ECIS for children with a disability. In the first instance, referrals for ECIS must go to Central Intake who will work with you to identify concerns, to plan next steps and to make a referral to an ECIS agency.

**Service Type**

INDIVIDUAL

**Service provider**

Department of Education and Training (DET)
