Service Description

Provides outreach support to families in the community to ensure babies thrive and develop in a safe and supportive environment. Improving outcomes for babies and their families by strengthening parenting and providing community support, optimising the growth and parent's care of children from pre-birth for the first 12 months. It combines intensive home visiting by both professionals and trained volunteers, with a strong focus on helping families connect to their local community. The goal of Community Bubs is to create a legacy of change which can be sustained ensuring the wellbeing of the infant and parent when services withdraw.
